Private Boutique Schools

Very small classes

Grade 4 - 12

Education Incorporated (Edu Inc South Africa) is a private boutique school with a unique perspective on education. Our select educators provide attentive and personalised teaching to small groups of children with potential. We grow children into independent thought leaders able to succeed in whichever path they choose in life.

Our global citizens come from all walks of life, but we have found that our demographics tend towards five distinct groups. Education Incorporated has exceptionally high academic standards with a solid support structure and as such, we attract students who want to achieve academically, i.e. the **ACADEMICS**.

Young musicians, models and actors have a grueling training and competition programmes that often become difficult to sustain while simultaneously managing the rigors of a full academic schedule. Although Education Incorporated does not offer formal Art and Drama, the school is able to accommodate **CREATIVE** Achievers in the Arts field.

At Education Incorporated we recognise that all children are unique and **INDIVIDUALS** and that large, busy environments overwhelm some children. Our environment recognises and nurtures the potential of each child working hand-in-hand with them, showing them what it is like to learn in secure, encouraging and positive surroundings.

Our students live in a world that is evolving and developing at an exponentially fast pace. Traditional academic values and systems are not equipping our future **ENTREPRENEURS** for the world they will step into after school. Critical thinking and the ability to create, build, problem solve and develop ideas will set Education Incorporated students apart.

Although Education Incorporated does not offer formal sports activities, the school is home to a significant number of **SPORTING STARS** competing at both provincial and national level. Young Springboks and Provincial Sportspeople have a grueling training and competition programmes that often enroll at Education Incorporated because we can help manage the rigors of a full academic schedule and sports training schedule.

Gershom and Jacqueline Aitchison's educational journey has resulted in a great passion for education and a belief in the potential for an improved educational standard through effective teacher training and implementation.

Their belief in the potential of each child, and the importance of being placed on the appropriate academic path, underlies their overwhelming passion to grow children holistically. **Education Incorporated** began in 2013 as a result of Gershom and Jacqueline's successes with [Kip McGrath Education Centres](#) in Bryanston & Midrand, which they have owned and run since 2006 and 2007 respectively; the Bryanston centre having been ranked amongst the largest Kip McGrath centres in the world.

Their experiences teaching in Asia (2003-2006) highlighted two pillars underlying their core values that are very foundation of the **Education Incorporated** schools – **high academic standards** along with the **respect afforded teachers**. The Aitchison's remain determined to see these non-negotiable values fostered in South Africa and remain committed to doing all they can to make this a reality.

Open Day / Visit Us

Fourways
Campus

Visiting a school and getting a “feel” for what it’s really like is as important as your investigation into the size of classes, values and philosophy of the school, meeting the headmaster and understanding the curriculum and staff.

Since we’re a private boutique school with very small classes, space in each grade is limited. We therefore recommend a personal tour with our Headmaster, as well as a needs analysis interview before commencing a trial week.

Our trial week is an immersive experience where your child attends class for a week and encompasses academic and social assessments. These are followed by an interview with you and your child to determine whether **Education Incorporated** is the right fit for your family.

While enrolment is usually scheduled for the commencement of the following academic year, or at the start of the next academic term, under certain circumstances we may accept and admit your child immediately.

It is possible you may be placed on a waiting list and notified should a space for your child becomes available.

When attending the tour, please remember to bring your child’s most recent **three** school reports and any clinical information we should be aware of.

Should a trial week be recommended, you will be required to provide personal information and sign an indemnity form before it can commence.

The admission process :

- Query and motivation
- Personal tour with our Headmaster
- Pre-interview (Parents)
- Trial week and Assessments
- Feedback from teachers and assessors
- Post-trial interview (Child)
- Post-trial interview (Parent)
- Offer of a position (next year, next term or immediate)
- Purchase school uniform and stationery
- Start as an Edulnc learner.

[Open Day / Visit Us](#)

Click here for further information regarding our Fees
(link to fees page which is **NOT** in the menu)

Tuition and Related Fees

Our fees comprise three components, an **initial registration/administration fee with deposit**, an **annual curriculum** fee, and a **grade-specific monthly school** fee.

The **annual curriculum** fee is payable at the commencement of each year and covers all tuition, outings, photographs, academic material, examinations, moderation, marking, reports, Professional registrations (ISASA and IEB) and practical lessons where applicable;

- The **grade-specific tuition** fee is payable either **monthly** over 12 months, **annually** in advance (a discount does apply) or on a **per-term** basis (January, May and September) the fees for 2017 are:

Early Bird Discount of 10% applies if Curriculum fee for 2017 is paid by 20

Grade	Annually (INCL VAT)
4	R6,502.32
5	R6,582.35
6	R6,560.12
7	R6,924.99
8	R7,691.82
9	R7,967.34
10	R6,993.54
11	R7,911.50
12	R10,540.58

Grade	Monthly x 12 (NO VAT)
4-6	R5,800
7-9	R7,075
10-12	R8,338

November 2016.

- The **initial registration/administration** fee of **R4,987** (INCL VAT) is payable together with a **refundable deposit** equal to one month's tuition. This includes... 3 x Golf Shirts, 1 x House shirt, 1 x School Bag, Locker Rental, Printing costs, Developmental levy, Administration and Registration fees, Entry exams and interview.

Payment discounts on the tuition fee are available for pre-payment

as well as for multiple enrolments (e.g. siblings) as follows:

5% off the tuition of simultaneously enrolled younger siblings;

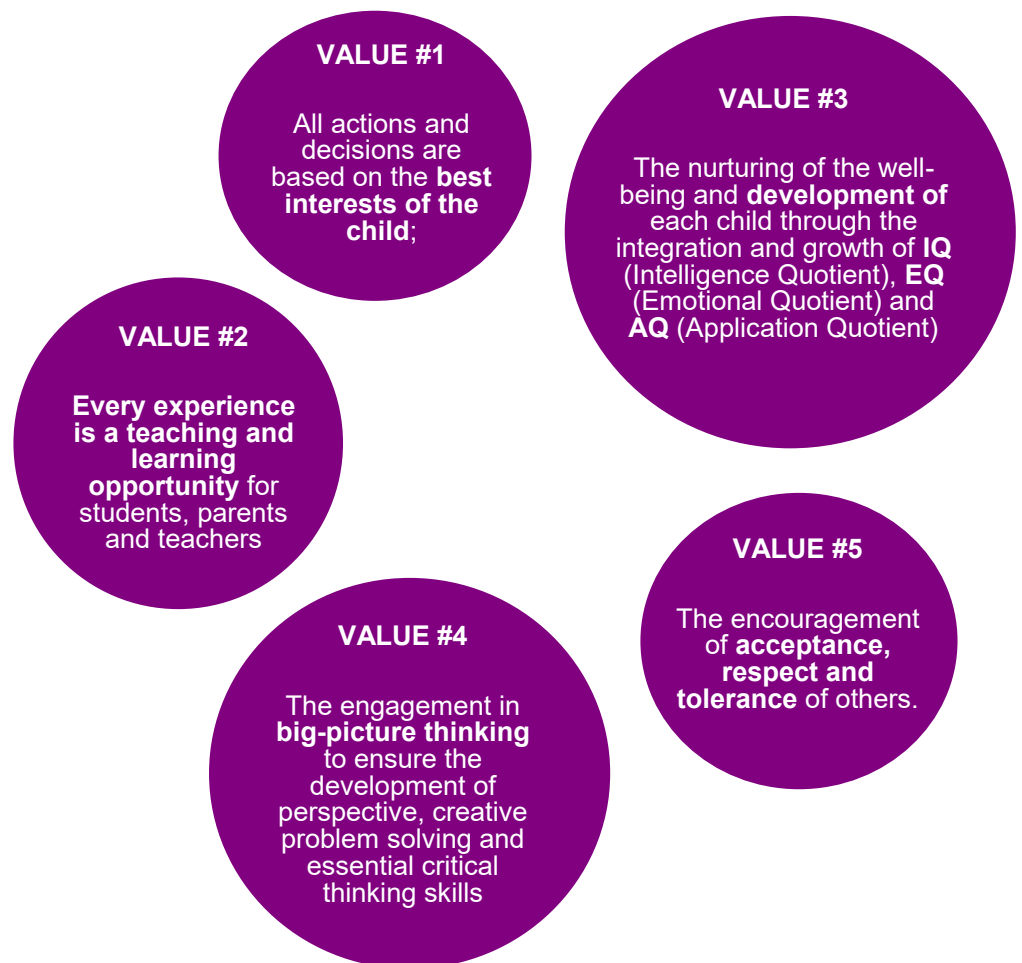

5% for term-in-advance payments; and

Our Values

At Education Incorporated we believe that effectively communicating with each other is the cornerstone of establishing, maintaining and growing relationships, and people. At Education Incorporated we talk about things, we plant seeds of thought that grow through valuable dialogue! Honest conversations about academics, peer and teacher relationships, personal development and growth, social issues and pressure, conflict management and leadership are but a few of the daily topics that we engage in.

In addition to effectively communicating, there are two pillars underlying the core values that are very foundation of the **Education Incorporated** schools – **high academic standards** along with the **respect afforded teachers**.

EDU Think is an open forum through which educators and students can plant their own seeds of thought about education by sharing their views and having a voice in educational matters. ([Link](#))

Open Day / Visit Us

Curriculum

Education Incorporated is registered with the Gauteng Department of Education (GDE) as a **Private School** and follows the Department of Education's CAPS curriculum (Curriculum Assessment Policy Statement). Every subject has a single, comprehensive and concise Curriculum and Assessment Policy Statement that provides details on what content teachers must teach and assess for every grade.

There is often a misconception regarding the **CAPS** curriculum and the **IEB**. Simply put, any school that writes the National Senior Certificate, be it as a GDE or IEB school, follows the CAPS curriculum.

For a school to write the grade 12 National Senior Certificate (NSC), regardless if it is the GDE or IEB NSC, the school needs to be accredited by **Umalusi** so that it can apply to be an examination venue. Being a registered school with the GDE does not automatically make a school an examination venue. The Umalusi accreditation process is very costly, laborious and is done every 7 years, but it does ensure a minimum standard of schools and service delivery. <http://www.umalusi.org.za/services.php?cat=Accreditation>

The IEB is not a curriculum, it is an Examination Board. Visit <http://www.ieb.co.za/School/iebnscc.php> for more detailed information.

We provide small classes for the Intermediate, Senior and Further Education and Training (FET) phases. i.e. from Grade 4—Matric.

We adhere to the ISASA independent /private schools' [calendar](#) which is 3 terms.

Students are examined twice a year, in the first half of the second term and at the end of the third term.

Grades	Phases	Bands	Available
R-3	Foundation	General	NO
4-6	Intermediate	Education	YES
7-9	Senior	Training (GET)	YES
10-12	FET	Further Education and Training	YES

Campus

Our founding **Education Incorporated** campus is based in the centrally-located and leafy suburb of Fourways in Sandton, South Africa.

We believe that the environment and classrooms play an important role in making school an enjoyable and effective process for the children.

Since **Education Incorporated** has a predominantly academic focus, we do not offer any extra-curricular activities. We do, however, encourage all parents to enrol their children in various club, sports and cultural activities as these are vital to the holistic development of the child.

We recognize and award school colours and school honours for off-campus achievements where appropriate (e.g. for provincial and international representation for the child's sport or cultural activity).

Planning for additional Academic, Entrepreneur, Technology and, Art and Culture campuses in neighbouring areas is already underway.

Teachers

The school is led by **Mr. Gershom Aitchison** (Headmaster) and **Mrs. Jacqueline Aitchison** (Director).

They are supported by the extensively experienced management team: **Dr. Erica Makings** (Head of Academics), **Mr. Willie Engelbrecht** (Head of Teacher Administration) and **Mr. Gavin Kennedy** (General Operations Manager).

Individual Photos of teachers and management.

Photo, Photo, Photo, Photo.....

Our professional team of teachers brings passion for education, enthusiasm and a vast range of experience to benefit our children, and ensure our educational values.

Whilst every teach has their own unique way of teaching, it is very important to the success of Education Incorporated that all the teachers **speak with the same voice** and that we all **share the same values and teaching philosophy**.

At Education Incorporated **our teachers are always learning** and daily training sessions are how we start each day. Some of the topics covered during the course of the year are: Exam setting skills; Cognitive levels (Bloom's Taxonomy); CAPS requirements; Design grids; Question types related to cognitive levels & design grids; Cover pages & format; Moderation tools & processes; The Cone of Learning & Bloom's Taxonomy (Revision); The teaching process in the classroom; Games in learning; Review of Cognitive levels & design grids; Study Process; and Exam Packs.

Would you like to join our team? ([link to application](#))

Houses

Education Incorporated has four houses. They are Flying Mythological Creatures namely: **Dragon**, **Griffin**, **Phoenix** and **Pegasus**.

Each house has three characteristics that are closely linked to the school values of **EQ** (Emotional Quotient), **IQ** (Intelligence Quotient), and **AQ** (Application Quotient).

Dragon: Power, Wisdom, Protection

Griffin: Courage, Intelligence, Determination

Phoenix: Inspiration, Enlightenment, Loyalty

Pegasus: Purity, Reason, Independence

On enrolment at Education Incorporated, each new student completes a questionnaire that determines which house they will be allocated to. They are then issued a pin to wear on their uniform to indicate which house they are in.

The houses have house teachers (also allocated by questionnaire) of whom one is the house leader. The students and teachers of the house vote for a house captain and may re-elect a captain at any point in the year based on the captains performance.

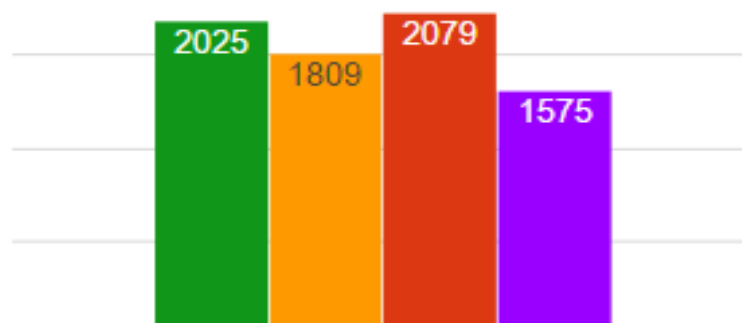

The houses and the points system was created when we saw how important it was for our students to belong to a team with a common goal: they inspire and support each other, hold each other accountable for their behaviour and compete fiercely to be the winning house.

The house points are awarded for numerous daily achievements and positive behaviours and are deducted to discourage undesirable behaviour. The points are weighted double in favour of the positive behaviour. The points provide instant feedback via the big screen TV in reception of the school. Any team at any point can issue a team challenge to gain more points and we often see teams learning to identify their strengths through this process so that they can maximise their points. There are numerous house challenges issued by the school that also allow the houses to advance their points.

The prize for the most points at the end of the year is the converted House Cup and the brag rights. An individual trophy is awarded to the individual who has contributed the most individual points to their house during the year.

EduInc Current House Points

FAQs

How do I join your school?

We're a private boutique school with very small classes and space in each grade is limited. We therefore recommend a personal tour with our Headmaster, as well as a needs analysis interview before commencing a trial week.

Our trial is an immersive experience where your child attends all classes for a week and encompasses academic and social assessments and feedback from both peers and staff. These are followed by an interview with you and your child to determine whether **Education Incorporated** is the right fit for your family.

To make an appointment to visit us and determine for yourself if we're the right school for your family, please [click here](#). (link to <http://tiny.cc/eduinctour>)

What must I bring to the tour/interview?

Your child's most recent three school reports and any clinical reports we should be aware of.

What is a boutique school?

A boutique school is an elite educational experience with small classes and personalised attention

Do you give homework?

Yes. We recognize that students should play sport and participate in other extra-mural activities, so homework is minimal but regular. We ensure that the children know what is expected of them and focus on teaching them to study effectively. Learning for subjects such as Mathematics, Accounting, EMS and Physics require particular effort, time and practice to develop these skills. Read an article on the subject by our headmaster at <https://madmimi.com/s/a20d68>

Do we still need extra lessons?

Education is one of those enterprises that sometimes needs remediation while still progressing. It's a little like servicing a car while it's still driving. If any large gaps are identified during the assessments (i.e. too large to remediate in the current academic year alone) we will recommend specific-outcome extra lessons at a reputable organization such as [Kip McGrath](#). (link to kipmcgrath.net)

Do you do examinations?

Yes, click on the ["Curriculum"](#) link in the menu for more detail.

Are you a registered school?

Yes, we are registered with the Gauteng Department of Education (GDE:JN700400746) As well as with CIPC 2009/208995/23

Are your teachers qualified?

All **Education Incorporated** teachers are registered with SACE (South African Council of Educators)

Do you follow the CAPS curriculum or the IEB curriculum?

There is no difference between the CAPS and IEB curricula. The IEB is simply an independent examination board. Our grade 12s currently write the GDE NSC, however, from 2018 they will write the IEB NSC examinations. Please click on the ["Curriculum"](#) link for more detail.

What exams do your Matrics write?

Our Matrics currently write the GDE **National Senior Certificate** (NSC) which falls within the **National Qualifications Framework** (NQF). This is regulated and governed by **Umalusi** who oversee all government and IEB schools' examination boards. From 2018 our Matrics will write the IEB examinations.

Do you have a school uniform?

Yes, a smart but fairly relaxed and casual uniform is worn by the students. Click on the ["Forms and Resources"](#) link in the menu for more detail.

What are your school holidays?

We follow the [ISASA](#) 3 term calendar.

Do you have a Code of Conduct?

Yes, Click on the ["Forms and Resources"](#) link in the menu for more detail.

Do you offer sport?

No, Click on the ["Campus"](#) link in the menu for more detail.

What are your school fees?

Please click on the ["Admissions"](#) link in the menu and then select "fees" for details.

Why do you charge VAT?

Primary Education (i.e Foundation, Intermediate, Senior and FET phases) is VAT exempt, so the grade tuition fee does **not** have VAT added. However, books, stationery, learning materials, outings Etc do attract VAT at the prevailing rate. Our VAT registration number is 4950 2552 75

Open Day / Visit Us

Join our amazing team

Who are we looking for?

Great teachers! It's really that simple. We want even more motivated, passionate people, who are very effective teachers, to join Education Incorporated and share this exciting adventure with us.

Quality and potential

Quality education is driven by quality people. We recruit people with potential and we actively encourage individual, professional, development.

Application Process

1) Fill out our application form: Please see the available positions under "Forms and Resources". Don't let the fact that there may be no current vacancies deter you from telling us what a great asset you'll be to our schools.

2) Phone Interview: A 10-20 minute conversation with general questions about your background, experience, and values.

3) In-person interview: The interview consists of a panel interview and conversation. We'll ask you to bring in sample lesson plans and work schedules and demonstrate your enthusiasm and passion.

Include in your application: Your application should include information about your own educational background, as well as your career experience. All applications are reviewed by our recruitment specialists, and candidates will progress to the telephonic interview, should their application be successful.

The phone interview: The second step in our recruitment process is a phone interview. This 10-20 minute call gives us an opportunity to get to know you better and consists of questions to assess your mission and vision alignment to our schools. Successful candidates will be invited for an in-person interview. In order to prepare for the phone interview, candidates should demonstrate that they have sufficiently researched Education Incorporated, and can explain why they are interested in joining our team.

The panel interview: The final step in our recruitment process is an in-person interview. You will also have the opportunity to observe the role for which you are applying. All information for the interview is provided in advance to ensure that there is enough time to prepare for the interview.

In order to prepare for the in-person interview, candidates should think about the role they would like to play in the growing Education Incorporated schools group, now and in the future, and about their strengths and areas of growth as individuals. Successful candidates will demonstrate confidence and a willingness to take feedback throughout the course of the interview.

Screens in Schools - Hero or Hoax? (added on 8 Sep 2016)

Dear Parents

Screens in Schools - Hero or Hoax?

Much discussion and debate continues to revolve around the pros and cons of screens in our schools. This is not a local phenomenon, but rather a world-wide issue as we come to grips with integration of technology into the classroom.

A recent TIME Magazine article highlights just how far apart some of the opinions are

DropBox

D6 news feed here —>

Academic Children

Education Incorporated is an academic school, in that we do not offer extra murals at school, and our primary focus is on strong academic performance.

Students are taught correct and sustainable study methods that are continually reinforced through our teaching philosophy. They are required to demonstrate mastery of concepts, using study skills, through Proof of Preparation that must be submitted for every test and exam. This allows us to ensure that students understand the academic process they are following, and to identify areas that have not been fully mastered.

We understand that academic achievement is not an event; it is a process that requires consistent dedication and application.

In the FET Phase (grades 10 – 12) Education Incorporated only offers subjects that are accepted for degree purposes:

- English
- Afrikaans
- Mathematics
- Maths Literacy
- History
- Geography
- Life Science
- Physics
- Engineering Graphic Design
- Business Studies
- Accounting
- Information Technology (8th Subject only - online course)
- Advanced Mathematics (8th Subject only - online course)

Information Technology and Advanced Mathematics may be selected as an eighth subject, but is considered to be self-study and takes place outside of the regular curriculum schedule.

Make an appointment to come and see what we do, how we do it, and if our values

Open Day / Visit Us

Creative Children

Although Education Incorporated does not offer formal Art and Drama, the school is able to accommodate Creative Achievers in the Arts field.

Young musicians, models and actors have a grueling training and competition programmes that often become difficult to sustain while simultaneously managing the

rigors of a full academic schedule.

At Education Incorporated we understand these pressures and support our young creatives by offering a degree of flexibility. We assist in managing their academic schedules while encouraging their best in their chosen field of Arts. Our dedicated staff support our creatives and are always willing to assist these student reach their goals both on the stage or studio and in the classroom, achieving the best possible results in both arenas.

We also recognise the achievements of our students, despite the fact that the school does not offer the discipline, in the form of colours and honours awards. Colours are awarded for certain placings at competition level, and Honours is awarded after this has been achieved for three years. Major contributions to the field of the Arts is also recognised and awarded.

Make an appointment to come and see what we do, how we do it, and if our values match your expectations.

Open Day / Visit Us

Individuals

At Education Incorporated we recognise that all children are unique and that large, busy environments overwhelm some children. One of EDU INC's core values is the encouragement of **acceptance, respect and tolerance** of others.

We focus on creating an environment that recognises and nurtures the potential of each individual child through a mentored style of teaching, in very small classes, allowing them to identify their strengths and ensuring that they do not fade into the background or slip through any cracks.

It is an inclusive environment where we work hand-in-hand with children with potential, showing them what it is like to learn in secure, encouraging and positive surroundings.

Make an appointment to come and see what we do, how we do it, and if our values match your expectations.

[Open Day / Visit Us](#)

Entrepreneurs

Entrepreneurs

At Education Incorporated we understand that our students live in a world that is evolving and developing at an exponentially faster and faster pace. Traditional academic values and systems will simply not equip them for the world they will enter upon the completion of their education.

Our focus is on critical thinking and the mastery of skills required to understand our changing world. We believe that it is vital that our students leave us with the ability to create, build, problem solve and develop ideas. They should be able to communicate these ideas with a high level of confidence and articulation.

Our very small classes and mentored teaching style, combined with training courses for students who are interested, facilitate the entrepreneurial development of our students.

Make an appointment to come and see what we do, how we do it, and if our values match your expectations.

Open Day / Visit Us

Sport Achievers

Although Education Incorporated does not offer formal sports activities, the school is home to a significant number of Sports Achievers competing at both provincial and national level.

Young Springboks and Provincial Sportspeople have a grueling training and competition programmes that often become difficult to sustain while simultaneously managing the rigors of a full academic schedule.

At Education Incorporated we understand these pressures and support our young sportspeople by offering a degree of flexibility. We assist in managing their academic schedules while encouraging their best sports performances. Our dedicated staff support our sports stars and are always willing to assist these student reach their goals both on the playing fields and in the classroom, achieving the best possible results in both arenas.

We also recognise the sports achievements of our students, despite the fact that the school does not offer the sport, in the form of colours and honours awards. Colours are awarded for competing at Provincial level, and Honours is awarded after this has been achieved for three years. Honours is automatically awarded if the student is competing at Junior Springbok level.

Make an appointment to come and see what we do, how we do it, and if our values match your expectations.
